

Since 1970, Patton & Cooke Co. has been manufacturing quality Trolley Shoes, Saddles, Socket Pins and Sleet Cutters. Recently, Trolley Harps and Trolley Harp Assemblies were developed and manufactured, making this product line complete.

Patton & Cooke Trolley Fittings are in use on transit systems throughout North America. They have a proven track record for performance and reliability.

"Patton & Cooke was able to design, manufacture and deliver a superior trolley harp in a few weeks. Their service was great! Patton & Cooke staff were easy to work with and they made every effort to ensure that our product and delivery needs were met".

- Ralph O'Meara,
Transit Purchasing Specialist,
King County Department
of Transportation, Seattle WA

Patton & Cooke's reputation has been built on prompt courteous response, quality products, quick delivery and competitive pricing. Many of our products, including Trolley Harps and Trolley Harp Assemblies, are co-developed with customers. The result are products that Patton & Cooke customers benefit from using.

"Patton & Cooke has supplied quality trolley fittings to Coast Mountain Buslink for over 25 years! Need I say more"

- Norbert Knauer, Electrical Maintenance Manager
Coast Mountain Buslink, Vancouver BC
