

Introducing Trolley Harps and Trolley Harp Assemblies!

Standard Trolley Harp Assembly

To compliment our product line of trolley bus fittings, Patton & Cooke now offers **Trolley Harps** and **Trolley Harp Assemblies**.

Trolley Harps are available in two styles: the standard style equipped with a ribbed insulator and our exclusive style equipped with a coil acceptor insulator. The exclusive style allows the attachment of a coil to the insulator which permits switch activation. Both styles can be purchased individually or as a Trolley Harp Assembly comprised of the trolley harp, saddle, saddle top, shoe, socket pin and hardware.

"Patton & Cooke was able to design, manufacture and deliver a superior trolley harp in a few weeks. Their service was great! Patton & Cooke staff were easy to work with and they made every effort to ensure that our product and delivery needs were met".

- Ralph O'Meara, Transit Purchasing Specialist,
King County Department of Transportation, Seattle WA
