

PATTON & COOKE ACCESSORIES

CABLE CROSS OVER

Provides a reliable path to safely cross over high voltage cable with service vehicles

DESCRIPTION:

Utility cable crossover pads are used by mine maintenance personnel to lay over electrical cables up to 114.3 mm or 4 1/2" in diameter. Crossover pads enable service vehicles to cross a cable during maintenance operations or in emergency situations. Complete with carrying handle for easy positioning. These cable crossover pads are not recommended for haul trucks.
