CABLE CROSSOVERS

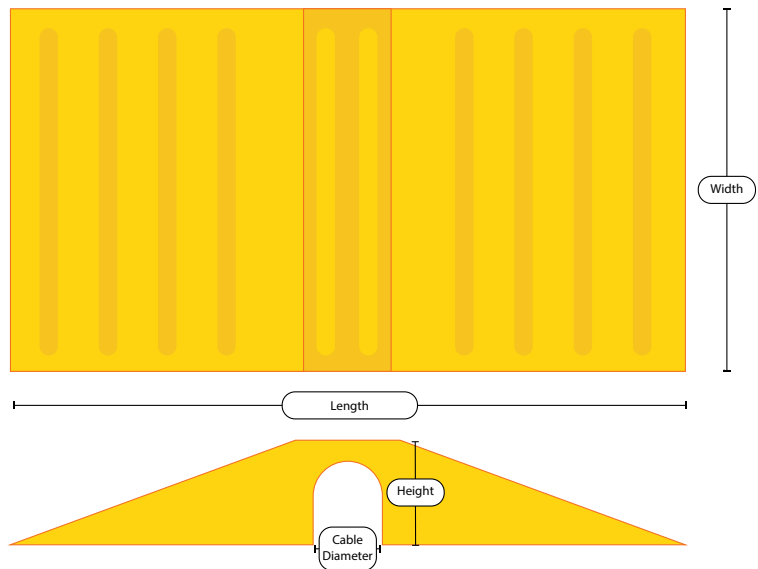

CROSSOVER PAD

Utility cable crossover pads are used by mine maintenance personnel to lay over electrical cables up to 114.3 mm or 4 1/2" in diameter. Crossover pads enable service vehicles to cross a cable during maintenance operations or in emergency situations. Complete with carrying handle for easy positioning.

FEATURES:

- 4000 lb/1814 kg per tire load capacity (Max load tested at 70°F/21°C)
- Manufactured from durable urethane
- Lightweight and portable with convenient carrying handle
- Accommodates up to 4.5" cables
- Safety Yellow for better visibility

*not for use with tracked vehicles, not recommended for haul trucks.
